## Projects

**FashionSelect - Fashion E-commerce Platform** **Jan 2026**
*Java, Spring Boot, React, SQL, REST API, JWT*

- Developed a full-stack fashion e-commerce application using **Spring Boot** and **React**, enabling users to browse products and interact with the application through RESTful APIs.
- Implemented **JWT-based authentication** and authorization to secure user access and protect application endpoints.
- Designed and integrated a **SQL database** with backend services to manage users, products, orders, and application data using structured CRUD operations.

**FoodServe - Online Food Delivery Application** **May 2026**
*Java, Spring Boot, React, SQL, REST API, JWT*

- Built a full-stack food service application using **Spring Boot** and **React**, implementing RESTful APIs for seamless communication between frontend and backend.
- Implemented **JWT authentication** and authorization to provide secure user login and controlled access to application resources.
- Integrated **SQL database** operations with backend business logic to manage users, food items, orders, and related application data efficiently.

## INTERNSHIP

**TAP Academy** **July 2026 – Jan 2027**
*Full Stack Developer Intern*

- Developed and deployed full-stack applications using **Java, Spring Boot, Hibernate, MySQL, React, and REST APIs**, following clean and scalable architecture.
- Built backend modules with **Spring Boot**, implemented secure authentication, and optimized API performance.
- Designed responsive **React** components, improved page load speed, and enhanced overall user experience.

## Achievements

- Secured **3rd place** in Technical Project Presentation **2025** by demonstrating **strong technical understanding**, **project implementation**, and **presentation skills**.
